The One True Game

Hi Everyone! Thank you for downloading the Print on Demand version of Cult Following: The One True Game!

We love our game, and our friends and family who have played it with us have all become devoted followers. What better way to let people know about our game than to provide a print-on-demand demo copy for free for everyone.

The cards can be cut using scissors or a paper cutter to fit neatly into 2.5" x 3.5" card sleeves. We found that using old magic cards worked well to stiffen the sleeves and make the cards playable. Be sure to print the PDF at 100% scale so that the cards are the right size.

This is a small demo deck. There are more cards to come! Learn more about Cult Following at <http://www.cultfollowinggame.com/>
